

INFORMATION TECHNOLOGY

Bachelor of Science in Information Technology (B.Sc.IT) is a degree program focused on storage, processing, securing, and managing information. It includes subjects such as programming, databases, software and networking. It is a three-year bachelor's degree programme which is offered as a full-time course. The very first step for candidates aspiring for a career after completing BSc IT is to learn every detail of the key concepts of Information Technology and related application developments.

Why Study B.Sc. IT?

B.Sc IT course is pursued by candidates who are passionate about computers, programming their applications, IT systems, database management, software testing, software and hardware designing and networking. Candidates who have a B.Sc IT degree can start working professionals in Software Companies, IT departments across industries, Fintech Companies, Back Office Processing Units, and Knowledge Processing industries. Enrolled students have the opportunity to specialise in the fields such as Data Analytics, Cybersecurity, Artificial Intelligence, Software Development, Software Testing, Mobile Computing, Cloud Computing and Database Management. Candidates can start working in organisations which are dependent on IT services such as pharmacies, healthcare, space research, multinational companies, ed-tech etc.
